## THE POLICY

The Salt Lake City School District Board of Education has proactively implemented enrollment policies and practices that provide families with more choice and flexibility in selecting an educational environment that best fits their child's needs and preferences. A variety of enrollment options are available within the district to meet the diverse needs, interests, and learning styles of students and their families. In enrolling students in district schools, the district complies with all applicable state and federal mandates in order to ensure consistent and equitable enrollment practices amongst all district schools.

The purpose of this policy is to govern enrollment requirements for both resident and non-resident students, including transfer students, students experiencing homelessness and/or unaccompanied youth, children of military families, and newcomer students.

The district has set forth its specific processes for implementing this board policy through the accompanying [administrative procedures](#).
